

Directions for playing the game of "ANIMAL RUMMY"

Shuffle and deal seven cards to each player, and place the remainder of the pack, face down, in the centre of the table to draw from.

Dealer plays first by drawing one card from the pack in the centre and then laying in front of him as many sets of three cards whose numbers are alike, or whose numbers run consecutively, as he can, e.g., 3 - 2's, 3 - 5's etc. or 3, 4, 5, or 7, 8, 9, etc., He then discards one card, face up, beside the face down pack in the centre.

The next player follows in a like manner, except that players can now draw from the face up or face down packs.

The object is to play out all the cards in the hand and as soon as one player has done this, the others count the numbers on the cards left in their hands, and this is the players score for the round. After playing for a convenient time each player adds his scores from each round and the player with the lowest score is the winner.
