

INSTRUCTIONS

1. Choose which team gets to answer a question first (Team 1).

2. Roll the dice to determine which question Team 2 will ask.

3. If the question is answered correctly, Team 1 rolls the dice again to determine the next question to be asked. This continues until a question is answered incorrectly.

4. Team 2 now rolls the dice with questions being asked by Team 1.

5. Use the score pads by filling in the blanks with the words ALL ABOARD. Each correct answer scores one letter. The first team or person to complete the words is the winner.

OPTIONAL SCORING

The first team or person to answer 20 questions or an agreed upon total, wins the game.

The game is color-coded; can be used with other trivia-type games.

These questions and answers were obtained from the best available information. Realizing there may be more than one answer in some cases, the discrepancies are not intentional.
